## STORY W04. ADD PRODUCT

As a user
I want to add a product
so that I can put it up for sale.

WIREFRAMES:

ACCEPTANCE CRITERIA:

- From the product overview page, I should be able to navigate to a product form
- For each product, a name, description and price can be entered
- All fields are mandatory
- After the form is submitted, the product overview page is shown
- Create a test class to test the functionality
